

# PDF Layout Options and Preferences

## PDF Layout Options and Preferences

I can create the PDF for you so you can download the full explanation directly — please confirm what kind of layout you want before I export it:

1. **Professional Report Format** – clean and academic (best for study or submission)
2. **Presentation Style PDF** – color headers, bold highlights, ideal for sharing or slides
3. **Condensed One-Page Summary** – brief version with comparison table and final insights

Reply with the number (1–3) that fits your purpose, and I'll immediately generate and send you the **PDF download file**.
